

## Swisspearl Vintago

Naturally authentic, rough, lively and unique

Vintago is a through-colored fiber cement panel with a sanded, slightly rough surface which gives the facade a natural, authentic, lively and unique look. The sanded process creates a surface that highlights the original purity of the fiber cement panels.

It offers a wide range of design possibilities through a variety of cutting and color options. Its translucent high resistant surface coating protects the panels and gives a building a consistent look that lasts.

With Vintago you give both the interior and exterior of a building a multifaceted and aesthetically beautiful look.

Photographer: Kilian J. Kessler, Zurich, Switzerland.

## INFO

### Panel

Base panel: Integrally colored

Top layer: Translucent

### Panel size (refer to page 6)

#### Swisspearl Largo:

Arbitrary panel size up to a maximum size of 3050 x 1250 mm, thickness 8 mm.

Largo panels can also be used for the interior.

#### Swisspearl Linearis:

4 different panel sizes, thickness 8 mm.

#### Swisspearl Modula:

2 different panel sizes, thickness 8 mm.

For a detailed summary of the sizing and color options, please refer to our delivery program.

### Colors

A wide standard range of 10 colors.

Differences in color tone between the panels are a natural part of the production characteristics. This underlines the liveliness of the material.

### Installation

The whole range from flat layer to lapped coverings, with face or concealed fastening.

For detailed information refer to our DIM (Design & Installation Manual).
